

Midwest Pet Supply Resource

Connecting Rescued Food and Supplies to Pets in Need

Our Mission: Filling Bowls and Bellies

Established in 2016, we help fight pet food insecurity across the Lake Michigan States—Illinois, Indiana, Southwest Michigan, and Wisconsin—by rescuing surplus goods and distributing them to homeless pets in shelters and to community families in need.

Today industry leaders such as Amazon, Blue Buffalo, Chewy.com, MARS Petcare, PetSmart, Purina, Stella & Chewy's and Walmart help support this important work.

Our 2024 Impact:

\$18M in goods delivered
(fair market value)

10M meals served to hungry pets

4M lbs of pet food kept out of landfills

To Donate Funds or Schedule Supply Pickups, Contact us at:

Our Operations:

Rescue Pack operates inside of a 250,000 sq ft warehouse in the western suburbs of Chicago. With full trucking logistics capabilities, we coordinated the pick-up and distribution of 120 semi truckloads of pet food and supplies in 2024 and look to exceed that number this year. Our largely volunteer workforce remains the heart of our organization.

Teaming With Us is Easy:

-  Schedule and pay for trucking
-  Track products from delivery to distribution
-  Qualify participating 501c3 organizations
-  Distribute goods directly to rescues and residents
-  Provide fair market value receipts

We proudly keep surplus pet food and supplies out of landfills – saving pets, supporting families and strengthening communities. With your support, we can do even more to ease shelter strain, cut pet euthanasia rates and keep more pets at home.
